

Vrinda Store Sales Data Analysis (Excel Project)

Project by: Deepak Rathour

Project Description

This Excel-based data analysis project analyzes Vrinda Store 2022 sales data using Excel features such as data cleaning, pivot tables, charts, dashboard creation, slicers, and business insights extraction. The objective was to identify sales trends, customer behavior, top-performing states, channels, age groups, and gender-based buying patterns to improve business decision-making.

Dataset Summary

Total Records Analyzed: 31047

Total Columns: 19

Columns Used: index, Order ID, Cust ID, Gender, Age, Date, Status, Channel , SKU, Category, Size, Qty, currency, Amount, ship-city, ship-state, ship-postal-code, ship-country, B2B

Work Completed in Analysis

- Imported and explored raw sales dataset
- Cleaned and prepared the data for analysis
- Created Pivot Tables for business insights
- Analyzed Sales vs Orders trends
- Compared Men vs Women purchase behavior
- Analyzed Order Status (Delivered, Returned, Cancelled, Refunded)
- Identified Top 5 Sales-Contributing States
- Analyzed Orders by Age Group and Gender
- Analyzed sales contribution by sales channels (Amazon, Flipkart, Myntra, etc.)
- Created an interactive Excel Dashboard using slicers
- Generated final business insights and recommendations

Key Insights

- Women customers contributed approximately 64–65% of purchases.
- Maharashtra, Karnataka, and Uttar Pradesh were the top-performing states.
- Adult age group (30–49 years) contributed maximum sales.
- Amazon, Flipkart, and Myntra were the highest contributing channels.
- Recommendation: Target women customers aged 30–49 in top states through offers/coupons.
